

## 06 Safeguarding children, young people and vulnerable adults procedures

### 06.9 E-safety (including all electronic devices with internet capacity)

#### Online Safety

It is important that children and young people receive consistent messages about the safe use of technology and are able to recognise and manage the risks posed in both the real and the virtual world.

Terms such as 'e-safety', 'online', 'communication technologies' and 'digital technologies' refer to fixed and mobile technologies that adults and children may encounter, now and in the future, which allow them access to content and communications that could raise issues or pose risks. The issues are:

*Content* – being exposed to illegal, inappropriate or harmful material

*Contact* – being subjected to harmful online interaction with other users

*Conduct* – personal online behaviour that increases the likelihood of, or causes, harm

#### I.C.T Equipment

- The setting manager ensures that all computers have no online access.
- No Tablets are used for the purposes of observation, assessment and planning or to take photographs for individual children's learning journeys on the premises.

#### Internet access

- Childrens computer has no access to the internet.
- All computers for use by children are sited in an area clearly visible to staff.

#### Personal mobile phones – staff and visitors (includes internet enabled devices)

- Personal mobile phones and internet enabled devices are not used by staff during working hours. This does not include breaks where personal mobiles may be used off the premises or in a safe place e.g, away from the children. The setting manager completes a risk assessment for where they can be used safely.
- Personal mobile phones are stored in a locked office cupboard.
- In an emergency, personal mobile phones may be used in the privacy of the lobby/entrance porch with permission.
- Staff ensure that contact details of the setting are known to family and people who may need to contact them in an emergency.
- Staff do not take their mobile phones on outings.
- Members of staff do not use personal equipment to take photographs of children.

- Parents and visitors do not use their mobile phones on the premises. There is an exception if a visitor's company/organisation operates a policy that requires contact with their office periodically throughout the day. Visitors are advised of a private space where they can use their mobile.

### **Cameras and videos**

- Members of staff do not bring their own cameras or video recorders to the setting.
- Photographs/recordings of children are only taken for valid reasons, e.g. to record learning and development, or for displays, and are only taken on equipment belonging to the setting.
- Camera and video use is monitored by the setting manager.
- Where parents request permission to photograph or record their own children at special events, general permission is first gained from all parents for their children to be included. Parents are told they do not have a right to photograph or upload photos of anyone else's children.
- Photographs/recordings of children are only made if relevant permissions are in place.
- If photographs are used for publicity, parental consent is gained and safeguarding risks minimised, e.g. children may be identified if photographed in a sweatshirt with the name of their setting on it.

### **Cyber Bullying**

If staff become aware that a child is the victim of cyber-bullying at home or elsewhere, they discuss this with the parents and refer them to help, such as: NSPCC Tel: 0808 800 5000 [www.nspcc.org.uk](http://www.nspcc.org.uk) or ChildLine Tel: 0800 1111 [www.childline.org.uk](http://www.childline.org.uk)

### **Use of social media**

Staff are expected to:

- understand how to manage their security settings to ensure that their information is only available to people they choose to share information with
- ensure the organisation is not negatively affected by their actions and do not name the setting
- are aware that comments or photographs online may be accessible to anyone and should use their judgement before posting
- are aware that images, such as those on Snapshot may still be accessed by others and a permanent record of them made, for example, by taking a screen shot of the image with a mobile phone
- observe confidentiality and refrain from discussing any issues relating to work
- not share information they would not want children, parents or colleagues to view
- set privacy settings to personal social networking and restrict those who are able to access
- not accept service users/children/parents as friends, as it is a breach of professional conduct
- report any concerns or breaches to the designated person in their setting

- not engage in personal communication, including on social networking sites, with children and parents with whom they act in a professional capacity. There may be occasions when the practitioner and family are friendly prior to the child coming to the setting. In this case information is shared with the manager and a risk assessment and agreement in relation to boundaries are agreed

#### **Use/distribution of inappropriate images**

- Staff are aware that it is an offence to distribute indecent images and that it is an offence to groom children online. In the event of a concern that a colleague is behaving inappropriately, staff advise the designated person who follow procedure 06.2 Allegations against staff, volunteers or agency staff.
